

# ”Business Application”

Muhammad Sajid Hameed Khan

Roll No. 2018-UET-NML-CS-13

March 2021

## 1 Motivation

First of all, it was a local area problem. My motivation behind the development of android app for business was that in future all businesses will go online. And to provide ease to customers and meet the requirements of business. My father has his own business and , in present era of covid-19, people will be able to buy the ordered items online.

## 2 Similar Apps(or websites, research work etc)
